American Electric Power Postemployment Benefit Plan

This page is intentionally blank

Purposes of valuation

American Electric Power (AEP) retained Willis Towers Watson US LLC (Willis Towers Watson) to perform an actuarial valuation of some of its postemployment benefit programs, including Long-Term Disability (income replacement), life insurance and health benefit continuation plans for employees receiving Long-Term Disability (LTD) benefits and health benefit continuation plans for COBRA beneficiaries (the Plan)

As requested by AEP, this report provides information for year-end financial reporting purposes required by FASB Accounting Standards Codification Topic 712 (ASC 712-10) for your fiscal year ending December 31, 2019. It also supplies the calculation of the Qualified Asset Account Limit under IRS Code Section 419A and compares it to the market value of plan assets as of December 31, 2019

The exhibits present year-end financial reporting information in accordance with ASC 712-10 including net balance sheet position of the Plan, current year expected cash flow, plan asset information, participant information, the plan provisions on which the valuation is based, and the actuarial assumptions and methods used in the calculations

Limitations

This valuation has been conducted for the purposes described above and may not be suitable for any other purpose. In particular, please note the following

- There may be certain events that have occurred since the valuation date that are not reflected in the current valuation.
- 2 This report does not provide information for plan reporting under ASC 965.
- 3. This report does not determine obligations on a plan termination basis, for which a separate extensive analysis would be required. No funded status measure included in this report is intended to assess, and none may be appropriate for assessing, the sufficiency of plan assets to cover the estimated cost of settling benefit obligations, as all such measures differ in some way from plan termination obligations.
- 4 The comparisons of accounting obligations to assets presented in this report cannot be relied upon to determine the need for nor the amount of required future plan contributions. Nevertheless, such comparisons may be useful to assess the need for future contributions because they reflect current interest rates at the measurement date in determining benefit obligations. However, asset gains and losses, demographic experience different from assumed, changes in interest rates, future benefit accruals, if any, and other factors will all affect the need for and amount of future contributions. In addition, if a plan is not required by law to be funded, benefit payments may also be paid directly by the plan sponsor as they come due.

Section 1 : Summary of key results

Benefit obligations & assets

All monetary amounts shown in U.S. Dollars

All monetary amounts snown in U.S. Dollars				
Measurement Date		December 31, 2019 De	cember 31, 2018	
Plan Assets	Fair value of assets (FVA)	3,113,999	2,101,570	
Benefit Obligations	Postemployment benefit obligation	(72,797,959)	(70,919,791)	
Funded Position	FVA minus obligation	(69,683,960)	(68,818,221)	
Funded Ratios	FVA to obligation	4 3%	3 0%	
Assumptions	Discount rate	1 85%	2 65%	
	Current health care cost trend rate	6 00%	6 25%	
	Ultimate health care cost trend rate	4 50%	5 00%	
	Years to ultimate trend rate	6	5	
Participant Data	Census date	12/31/2019	12/31/2018	

Comments on results

The funded position decreased from \$(68,818,221) to \$(69,683,960), which was less than the expected \$3 million decrease. Significant reasons for the changes in the unfunded benefit obligation since the prior year include the following

- Demographic gains for LTD claimants, due to more claim terminations and fewer new disabilities than expected, decreased the benefit obligations
- Per capita claims costs increased by less than was expected, which decreased the benefit obligations
- The assumed ultimate trend rate was lowered from 5 0% to 4.5%, which decreased the benefit obligations
- The discount rate, based on U.S. Treasury constant maturity yields, decreased from 2 65% to 1 85%, resulting in an increase to benefit obligations.
- Increased funding of the LTD VEBA resulted in an additional \$1 million of plan assets at year-end 2019

SOAH Docket No. 473-21-0538 PUC Docket No. 51415 CARD's 4th, Q. # CARD 4-41 Attachment 3 Page 8 of 30

American Electric Power Postemployment Benefit Plan

Basis for valuation

Appendix A summarizes the assumptions and methods used in the valuation. Appendix B summarizes our understanding of the principal provisions of the plans being valued. Unless otherwise described below under Subsequent events, assumptions were selected based on information known as of the measurement date

Changes in assumptions

- Plan cost rates, employee contribution rates, and COBRA rates for 2020 have been used as a basis for this valuation
- The discount rate has been updated to reflect Treasury Constant Maturities of as December 31, 2019, which decreased the rate from 2 65% as of December 31, 2018, to 1.85% as of December 31, 2019
- The base healthy mortality rates have been updated from RP-2014, factored to 2006, to Pri-2012 and the mortality improvement scale has been updated from a modified version of MP-2018 adjusted to reflect 75% of the long-term improvement rates to a modified version of MP-2019 adjusted to reflect 75% of the long-term improvement rates
- Ultimate health care trend was lowered to 4 50%

Actuarial certification

This valuation has been conducted in accordance with generally accepted actuarial principles and practices

Reliances

In preparing the results presented in this report, we have relied upon information provided to us regarding plan provisions, participants, claims data, monthly contribution rates and plan assets (if any) provided by AEP and other persons or organizations designated by AEP. We have relied on all the data and information provided as complete and accurate. We have reviewed this information for overall reasonableness and consistency, but have neither audited nor independently verified this information. Based on discussions with and concurrence by the plan sponsor, assumptions or estimates may have been made if data were not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

We have relied on all the information provided as complete and accurate. The accuracy of the results presented in this report is dependent upon the accuracy and completeness of the underlying information. Any material inaccuracy in the data, assets, plan provisions or other information provided to us may have produced results that are not suitable for the purposes of this report and such inaccuracies, as corrected by AEP, may produce materially different results that could require that a revised report be issued.

Measurement of benefit obligations, plan assets and balance sheet adjustments

Census date/measurement date

The measurement date is December 31, 2019. The benefit obligations were measured as of AEP's December 31, 2019, fiscal year end and are based on participant data as of the census date, which is summarized in Section 3

Plan assets and balance sheet adjustments

Information about the fair value of plan assets was furnished to us by AEP Willis Towers Watson used information supplied by AEP regarding postemployment benefit asset and postemployment benefit liability as of December 31, 2019. These data were reviewed for reasonableness and consistency, but no audit was performed.

Assumptions and methods under U.S. GAAP

As required by U.S. GAAP, the actuarial assumptions and methods employed in the development of the postemployment benefit liability have been selected by AEP. Willis Towers Watson has concurred with these assumptions and methods. U.S. GAAP requires that each significant assumption "individually represent the best estimate of a particular future event."

SOAH Docket No. 473-21-0538 PUC Docket No. 51415 CARD's 4th, Q. # CARD 4-41 Attachment 3 Page 10 of 30

American Electric Power Postemployment Benefit Plan

6

The results shown in this report have been developed based on actuarial assumptions that, to the extent evaluated by Willis Towers Watson, we consider to be reasonable. Other actuarial assumptions could also be considered to be reasonable. Thus, reasonable results differing from those presented in this report could have been developed by selecting different reasonable assumptions.

A summary of the assumptions and methods used is provided in Appendix A. Note that any subsequent changes in methods or assumptions for the December 31, 2019 measurement date will change the results shown in this report.

Nature of actuarial calculations

The results shown in this report are estimates based on data that may be imperfect and on assumptions about future events that cannot be predicted with certainty. The effects of certain plan provisions may be approximated or determined to be insignificant and therefore not valued. Assumptions may have been made, in consultation with AEP, about participant data or other factors. Reasonable efforts were made in preparing this valuation to confirm that items that are significant in the context of the actuarial liabilities are treated appropriately and are not excluded or included inappropriately. Any rounding (or lack thereof) used for displaying numbers in this report is not intended to imply a degree of precision, by their nature, actuarial calculations are not precise.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to many factors, including: plan experience differing from that anticipated by the economic or demographic assumptions, changes in economic or demographic assumptions, increases or decreases expected as part of the natural operation of the methodology used for the measurements, and changes in plan provisions or applicable law. It is beyond the scope of this valuation to analyze the potential range of future postretirement welfare contributions, but we can do so upon request. Postemployment group benefits models necessarily rely on the use of approximations and estimates and are sensitive to changes in these approximations and estimates. Small variations in these approximations and estimates may lead to significant changes in actuarial measurements.

Limitations on use

This report is provided subject to the terms set out herein and in our master consulting services agreement dated July 29, 2004, and any accompanying or referenced terms and conditions.

The information contained in this report was prepared for the internal use of AEP and its auditors in connection with our actuarial valuation of the postemployment benefit plan as described in Purposes of Valuation above. It is not intended for and may not be used for other purposes, and we accept no responsibility or liability in this regard. AEP may distribute this actuarial valuation report to the appropriate authorities who have the legal right to require AEP to provide them this report, in which case AEP will use best efforts to notify Willis Towers Watson in advance of this distribution. Further distribution to, or use by, other parties of all or part of this report is expressly prohibited without Willis Towers Watson's prior written consent. Willis Towers Watson accepts no responsibility for any consequences arising from any other party relying on this report or any advice relating to its contents.

Section 2: Postemployment benefits obligation

This report summarizes the financial results for AEP's postemployment benefit plan, including the effect of the Medicare Part D subsidy, based upon an actuarial valuation of the income replacement, life insurance and health care continuation benefits during long-term disability and COBRA as of December 31, 2019. The accounting for the benefits not attributable to employee service, income, life insurance and contributory health care continuation is subject to ASC 450-20 for benefits that do not accumulate

American Electric Power Postemployment Benefit Plan

Change in unfunded liabilities from prior year

In total, our calculations of FASB ASC 712 unfunded liability as of December 31, 2019, for the postemployment benefits that Willis Towers Watson values is \$66.6 million which was a decrease of \$0.9 million from the total unfunded liability as of December 31, 2018.

Summary of Unfunded Liability Increase/(Decrease)	
Non-UMWA	
■ Health Care and Life insurance Continuation for LTD Claimants	\$ 1 8 million
■ LTD Income Replacement	(1 1) million
■ COBRA	 0 2 million
Total	\$ 0 9 million

The discount rate has decreased from 2.65% to 1.85% and is determined based on a duration matching approach using a risk-free bond universe with the plan's expected cash flows. The duration of AEP's postemployment benefit plan, excluding COBRA and severance benefits, is 3.32 years as of December 31, 2019. The changes in liabilities are analyzed below for each benefit.

Health Care and Life Insurance Continuation for LTD Claimants

During 2019, the liability estimate for these benefits decreased from \$45.6 million to \$47.4 million. This \$1.8 million increase results from the following factors:

	Medical	Life Insurance	Dental	Total
December 31, 2018, Liability	\$30,265,817	\$14,764,415	\$561,919	\$45,592,151
Increase/(Decrease) due to				
Normal operation of the plan	1,197,732	215,227	(4,832)	1,408,127
Claims experience	(1,718,824)	0	(31,763)	(1,750,587)
Demographic experience	1,065,683	28,480	(11,402)	1,082,761
Trend assumption change	(99,980)	0	0	(99,980)
Other assumption changes	749,561	385,939	17,415	1,152,915
December 31, 2019, Liability	\$31,459,989	\$15,394,061	\$531,337	\$47,385,387

11

LTD Income Replacement

During 2019, the liability estimate (under ASC 712) decreased from \$25.2 million to \$25.1 million. This \$0.1 million decrease results from the following factors

December 31, 2018, Liability	\$25,222,525
Increase/(Decrease) due to	
Normal operation of the plan	1,853,034
Demographic experience	(2,651,963)
Economic assumption changes	701,173
December 31, 2019, Liability	\$25,124,769

In addition to the \$0.1 million liability decrease, there was a \$1.0 million increase in plan assets, leading to a \$1.1 million decrease in the LTD plan's unfunded liability under ASC 712

There is also a significant unfunded liability of \$26.1 million as of December 31, 2019, measured under Internal Revenue Code Section 419A. Therefore, all contributions AEP made to the LTD VEBA in 2019 are tax deductible in 2019 and none of the trust's 2019 investment income needs to be reported as Unrelated Business Taxable Income (UBTI). The components of this calculation are:

Funded Status of LTD VEBA as of December 31, 2019

		AEP East Disabled		3/31/1998 Eas /2000 West L		
		Before 1996	Approved	IBNA 1	Subtotal	Total

¹ Incurred but not approved

² Exclusion of liability for projected benefit payments to claimants who have not been disabled for at least 5 months.

12

COBRA and Severance

The liabilities as of December 31, 2019, associated with COBRA continuation coverage for medical and dental benefits have been included for all AEP companies. Liabilities were calculated for participants and assigned to the AEP company for which they last worked.

The liabilities were determined assuming that COBRA beneficiaries would incur claims costs equal to 154% of the per capita claims costs for active employees. No termination rates or increased claims cost morbidity was assumed for former employees receiving severance benefits because their monthly contributions to continue AEP's coverage was equal to the contributions charged to active participants

This liability increased by \$0.2 million during 2019, primarily due to an increase in COBRA enrolment.

Highlights

Actuarial and economic assumptions

The discount rates for determining the obligations reflect the time value of money as of the measurement date. This rate for ASC 450-20 obligations is based on matching Treasury constant maturities to the plan's expected cash flows. Rounding is done to the nearest 0.05% for financial reporting purposes and to the nearest 0.10% to calculate funding limits. The resulting discount rates are:

	December 31, 2019	December 31, 2018
ASC 450-20	1 85%	2 65%
For qualified asset accout limit	1 80%	2 60%

Health care cost trend rate assumptions

Health care cost trend is the assumed rate of increase in per capita health care charges. It is disclosed in AEP's financial statements for ASC 715-60 as of December 31, 2019.

1				- A - B
	Year	Medical	Dental	8
	2020	6 00%	3 00%

17

Actuarial Methods

Applicable accounting standards

All benefits have been valued under FASB ASC 450-20-25-2

Postemployment benefit liability

FASB ASC 450-20-25-2 liabilities are equal to the actuarial present value of future benefit payments to current benefit recipients, with no allowance for incurred but unreported claims or claims administration expenses

Calculation of LTD Plan liabilities for disabled participants under IRC Section 419A funding limit valuation includes the following

- Benefits in payment status The liability for disabled employees currently receiving benefits is the present value of future benefits expected to be paid
- Benefits pending or in the waiting period An estimate is made of the present value of benefits for disabled employees not yet receiving benefit payments
- c) For purposes of determining the qualified asset account limit in accordance with Section 419A of the Internal Revenue Code, benefits to be paid to claimants whose disabilities have not lasted more than five months have been excluded from the liabilities described under a) and b) above
- Claims administrative expenses equal to 12 26% of expected benefit payments

Development of health care benefit claims cost

Cost per participant is based on age-related retired participant costs for AEP non-UMWA plans, adjusted to reflect higher anticipated health care utilization for disabled individuals and reduced for Medicare offsets

Benefits not valued

Claims incurred but not reported (IBNR) have not been included in the FASB ASC 712-10 liabilities for any benefits

Data Sources

American Electric Power (AEP), through its third-party administrator, furnished participant data as of January 1, 2020 Health plan vendors furnished the claims cost data. Data were reviewed for reasonableness and consistency, but no audit was performed. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale — Significant Economic Assumptions – Funding Limit and Accounting

Discount rate (accounting)

As required by U S GAAP, the discount rate was chosen by the plan sponsor based on matching projected plan cash flows (for all benefits except COBRA continuation) to U S Treasury Constant Maturity yield rates on the measurement date, with resulting discount rate rounded to the nearest 0 05%

Discount rate (funding limits)

The discount rate was chosen by the plan sponsor based on matching projected LTD income benefit cash flows to the U.S. Treasury Constant Maturity yield rates on the measurement date, with resulting discount rate rounded to nearest 0.10%

Claims cost trend rates

Assumed increases were chosen by the plan sponsor and, as required by U.S. GAAP, they represent an estimate of future experience, informed by an analysis of recent plan experience, leading to select and ultimate assumed trend rates and reflecting the expected near-term effect of recently enacted plan changes. In setting near-term trend rates, other pertinent statistics were considered, including surveys on general medical cost increases. In setting the ultimate trend rate, considerations included assumed GDP growth consistent with the assumed future.

American Electric Power Postemployment Benefit Plan

economic conditions inherent in other economic assumptions chosen by the client at the measurement date

After examining historical variability in trend rates, we believe that the selected assumptions do not significantly conflict with what would be reasonable based on a combination of market conditions at the measurement date and future expectations consistent with other economic assumptions used, other than the discount rate

Participant contribution trend rates

In accordance with the substantive plan communicated to participants, participant contributions are intended to remain a fixed percentage of total plan costs, and thus the trend rates, and the description of the derivation of the trend rates, are the same as for claims costs as shown above

Medicare Part D subsidy trend rates

The assumed rates of increase in Medicare Part D subsidy are assumed to equal the plan's assumed trend rates

Per capita claims costs

Express Scripts and Anthem supplied data on retiree medical claims incurred in 2018 and paid through March 2019. Claim experience rates are calculated for the plans by normalizing claims experience for benefit differences and combining. These normalized incurred claims were then reduced by prescription drug rebates, divided by covered lives and trended forward two years to 2020. Adjustments for plan provision and network changes were also made. Finally, administrative expense rates were added to claims costs.

Medical and prescription drug claims cost models are developed by agegrading these claim rates over standard Willis Towers Watson morbidity curves for both medical and prescription drugs to develop the quinquennial age-banded claims cost assumptions

Aetna supplied data on dental claims incurred in 2018 and paid through March 2019. Active employee experience was analyzed to derive the dental claim rates used in this valuation.

Medicare Part D subsidy value

We calibrated our modeling tool to reflect the 2020 cost of the current prescription drug plans for AEP's disabled employees. The tool employs a continuance table of annual retiree drug utilization levels, developed from analyzing 2016 claim experience of 1.8 million Medicare-eligible participants across several large companies.

After the plan-specific benefit provisions have been calibrated to current costs, the Modeler trends costs forward to 2020 at 7% per year Actuarial equivalence was determined using the following approach

Gross Value Test — The Modeler calculates the value of standard Medicare Part D coverage and compares it to AEP's plan costs AEP's plans passed this test by being richer than the projected value of standard Medicare part D coverage for these groups

Net Value Test — The net value prong of the test compares the value of Standard Part D coverage in 2020 minus the greater of \$392 88 per year (the national average Part D premium) and 25 5% of the gross value of Part D to the projected 2020 value of AEP coverage minus the average projected 2020 retiree contribution rate For this purpose, employee contributions were assumed to apply first to the value of medical benefits and then to prescription drug benefits

When the plans are deemed to be actuarially equivalent, the tool calculates the average expected value of the employer subsidy in 2020, using the continuance table calibrated to AEP's plan costs

19

Assumptions Rationale — Significant Demographic Assumptions

Healthy Mortality Assumptions were selected by the plan sponsor and, as required by

U.S. GAAP, represent a best estimate of future experience

Disabled Mortality Assumptions were selected by the plan sponsor and, as required by

U.S. GAAP, represent a best estimate of future experience

Rates of disability termination

(recovery or death)

Termination rates reflecting both recovery and death were based on a published table for disabled participants believed to have similar characteristics to the plan population—the 2012 Group Long-Term Disability (GLTD) table, reflecting experience from the 2016 GLTD Experience Study

Assumed termination rates differ by age, gender and duration because of

differences in termination rates by gender and duration observed in studies of disability termination rates conducted by the Society of

Actuaries

Source of Prescribed Methods

Accounting methods

The methods used for accounting purposes as described in Appendix A are "prescribed methods set by another party," as defined in the actuarial standards of practice (ASOPs) As required by U.S. GAAP, these methods were selected by the plan sponsor

Changes in Assumptions and Methods

Change in assumptions since prior valuation

Per capita claims costs were updated to reflect 2018 dental and retiree

medical claims experience

Discount rate was changed from 2 65% to 1 85% for financial reporting purposes and from 2 60% to 1 80% for determining tax funding limits

Healthy mortality was changed to Pri-2012 mortality table

Medical trend rates were changed to continue the current schedule, but

further phasing down to an ultimate rate of 4 50% in 2026

Change in methods since prior valuation

None.

22

American Electric Power Postemployment Benefit Plan

Contributions

Same rates payable by active employees for supplemental coverage

COBRA

When employees terminate, they are offered medical coverage for 18 months at COBRA rates (102% of average active/pre-65 retiree medical costs) Because anti-selection occurs, the average cost for participants who elect COBRA coverage is typically more than the COBRA rates they pay to enroll for coverage Surviving spouses may continue coverage at COBRA rates for up to 36 months

Changes in Benefits Valued Since Prior Year

None

23

SOUTHWESTERN ELECTRIC POWER COMPANY'S RESPONSE TO CITIES ADVOCATING REASONABLE DEREGULATION'S FOURTH SET OF REQUESTS FOR INFORMATION

Question No. CARD 4-46:

Employee Benefits: Please provide narrative description of any changes to the Company's employee benefits during the test year and continuing through the latest date after the end of the test year.

Response No. CARD 4-46:

During the test year, effective January 1, 2020, the Company changed the employer provided life insurance to align with industry benchmarks. Employees hired after December 31, 2019, receive employer paid life insurance at one-times base with employees hired prior to that date grandfathered at two-times base.

SOUTHWESTERN ELECTRIC POWER COMPANY'S RESPONSE TO CITIES ADVOCATING REASONABLE DEREGULATION'S FOURTH SET OF REQUESTS FOR INFORMATION

Question No. CARD 4-47:

Employee Benefits: Please provide a narrative describing any changes the Company plans to make to any of its employee benefits within the two years after the end of the test year.

Response No. CARD 4-47:

Aside from the Company provided life insurance change effective January 1, 2020 described in the response to CARD 4-46, the Company has no definitive plans to make employee benefit changes within the two years after the end of the test year.

SOUTHWESTERN ELECTRIC POWER COMPANY'S RESPONSE TO CITIES ADVOCATING REASONABLE DEREGULATION'S FOURTH SET OF REQUESTS FOR INFORMATION

Question No. CARD 4-48:

Employee Benefits: Please quantify the savings which have been achieved or that are expected to be achieved from changes to Company's employee benefits.

Response No. CARD 4-48:

The 2020 life insurance change described in the response to CARD 4-46 impacts only those hired after December 31, 2019 and is expected to produce approximate annual savings of less than \$200 per hire.

SOUTHWESTERN ELECTRIC POWER COMPANY'S RESPONSE TO CITIES ADVOCATING REASONABLE DEREGULATION'S FOURTH SET OF REQUESTS FOR INFORMATION

Question No. CARD 4-49:

Employee Benefits: Please provide copies of the documents supporting the test year level of employee benefits.

Response No. CARD 4-49:

Please refer to CARD_4-49_Attachment_1.xlsx describing the test year level of employee benefits. Employee benefits are recorded in FERC Account 926 which is supported by the Company's trial balance. Please see CARD_4-49_Attachment_2_(Employee Benefits).xlsx for amounts supporting the test year level of employee benefits. See "Summary of 926 Accounts" tab for a summary of FERC 926 accounts by benefit type. See "926 Accounts-Detail" tab for the detailed sub-account balances used in the summary, and see Schedule A-4 of the RFP for the full test year trial balance. Please see CARD_4-49_Attachment_3.xlsx for Total AEPSC Employee Benefits charged to FERC Account 926 on AEPSC during the Test Year, and Amount of AEPSC Employee Benefits billed to SWEPCO during the Test Year. Amount billed to SWEPCO doesn't include any pro-forma adjustments.

CARD 4-49 Attachments 1 through 3 are available electronically on the PUC Interchange.

SOUTHWESTERN ELECTRIC POWER COMPANY'S RESPONSE TO CITIES ADVOCATING REASONABLE DEREGULATION'S FOURTH SET OF REQUESTS FOR INFORMATION

Question No. CARD 4-50:

Employee Benefits: Please provide copies of the documents supporting the pro forma level of employee benefits.

Response No. CARD 4-50:

The pro-forma level of employee expense is contained on RFP WP/A (Account 926). Certain items were removed from the test year amounts (See Brian Frantz Exhibit BJF-6B and WP/A-3.25). In addition, adjustments were made for pensions, SFAS 106 and SFAS 112 based upon 2020 actuarial reports referenced at CARD 4-41. These adjustments are detailed at WP/A-3.10 to WP/A-3.12. A corrected version of WP/A-3.11 was submitted with the response to CARD 4-41. For a document describing employee benefits, please refer to CARD 4-49 Attachment 1.

SOUTHWESTERN ELECTRIC POWER COMPANY'S RESPONSE TO CITIES ADVOCATING REASONABLE DEREGULATION'S FOURTH SET OF REQUESTS FOR INFORMATION

Question No. CARD 4-51:

Employee Benefits: Please provide the amount of each employee benefit in each of the three years preceding the test year.

Response No. CARD 4-51:

Please see CARD 4-51_Attachment_1_(Employee Benefits).xlsx for the amount of each SWEPCO employee benefit for the years 2016 to 2019.

Please see CARD_4-51_Attachment_2.xlsx for AEPSC Total Employee benefits recorded in FERC account 926 on AEPSC's books for the year 2016-2019, and Amount of AEPSC Employee Benefits billed to SWEPCO for the years 2016-2019. Please note that the majority of AEPSC employee benefit costs from FERC Account 926 are loaded onto labor as fringe costs.

SOUTHWESTERN ELECTRIC POWER COMPANY'S RESPONSE TO CITIES ADVOCATING REASONABLE DEREGULATION'S FOURTH SET OF REQUESTS FOR INFORMATION

Question No. CARD 4-59:

Director's Compensation: Please provide the amounts recorded for director fees and other compensation for the test year for SWEPCO and for the Texas jurisdiction.

Response No. CARD 4-59:

No AEP (parent company) director compensation is charged to SWEPCO. AEP directors that are AEP executives are not separately compensated for their AEP Board service. Members of the SWEPCO Board of Directors do not receive directors fees or other director compensation for serving on the SWEPCO Board of Directors. All SWEPCO Board members are AEP executives who are not separately compensated for their SWEPCO Board service.
